

Going to the Museum with Mum and Dad... ENJOY EXPLORING!

Dear kids and parents, **welcome** to the **Borgogna Museum!**

You are now in a **huge house open to everybody** and **filled with lots of treasures**... here below are a **few tips so you can make the most of your visit**.

- 1- On arrival, **PLEASE COLLECT** your free kids activity sheet at the ticket office. These sheets have been created by the Education Department so that you can take a fun and intriguing journey of discovery throughout the Museum.
- 2- Before starting your journey, mum and dad will be required to leave their bags and any large items in the **designated locker area**, so do not forget to take the things you may need during your visit!
- 3- You are not allowed to take pictures... but you will discover the Museum simply by looking around to see that it contains **all the things you love the most** like animals, flowers and plants, houses, stories, personalities, children, cities, tales, journeys, trees, seas, snow and more!
- 4- At the Borgogna Museum you can touch and caress **BUT WITH YOUR EYES ONLY!** You will be immersed in a location decorated with furniture, paintings and works of art so valuable and fragile that they mustn't be touched!
- 5- **This museum is huge!** Over 800 works are displayed on 3 different floors: if time is short, only visit the rooms in which you are more interested!
- 6- Each work of art or painting is briefly described in a **CAPTION** reporting a few but essential details of that piece. Captions are very helpful for highly interested visitors, both young and adult. A red dot always indicates a masterpiece you **MUST** see. Captions are both in Italian and English text for foreign visitors.
- 7- **Should you need some rest**, you may wish to relax on one of the red benches along the itinerary... or, if you are visiting the ground floor, you can relax on one of the black chairs in the large room. **Is it time for a snack?** Visitors can consume food and beverage in the area next to the ticket office. From here you can also access toilets.
- 8- Should you have any questions during your visit, you can address them to the nearest **STAFF MEMBER** who will be happy to reply to your question or give you additional details.
- 9- Before leaving the museum, **please share your feedback by filling in our questionnaire** with any ideas or comments, thus enabling us to identify any improvement areas or actions!
- 10- Want to take home a memory of your visit? The game sheet "Un'avventura sul mare a quadretti" (an adventure on the sea of rice fields) is on sale in our bookshop. Don't miss it!

Please come to visit us again
and take part in one of our many family-friendly activities!
